Art Unit: 2878

1. This application is in condition for allowance except for the following formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "reference optical fiber path" of claim 17 and means for providing "a reference polarization state" of claim 25 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

3. Claims 17-32 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Regarding claims 17-24, the prior art fails to disclose or make obvious a sensor for detecting a change in a distance between a first location and a second location comprising, in addition to the other recited features of the claim, a reference optical fiber path for simulating the at least one substantially helically coiled optical fiber and over which a second optical signal is transmittable.

Art Unit: 2878

Regarding claims 25-32, the prior art fails to disclose or make obvious a method for detecting a change in a distance between a first location and a second location comprising, in addition to the other recited steps of the claim, the step of comparing the polarization state of the optical signal transmitted with at least one of another polarization state of the optical signal before its transmission and a reference polarization state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tur et al is cited for disclosing an optical fiber sensor comprising helically coiled fibers.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Pyo whose telephone number is 703-308-4841. The examiner can normally be reached on Mon-Fri (with flexible hour), First Mon. off.
